Chessie's Grotto is an exhibit in the museum.

Chessie's Grotto is for young children to play.

There are lots of things to see and touch in Chessie's Grotto.

There are bubbles in a tube to look at and touch. Looking at the bubbles can be fun.

I can touch Chessie the Sea Monster. Chessie is a nice sea monster.

There are different colors that I can see in Chessie's Grotto.

There is a slide that I can use. Sliding down the slide can be fun.

On the slide, I climb up the steps and go down the slide on my bottom with my feet first.

I can do a good job going down the slide on my bottom with my feet first.

There are cushions that I can sit on in this area.
Sitting on the cushions may feel good to me.

I can have fun in the Chessie's Grotto! Port
Discovery is fun!

Overview:

Scripted stories help children understand how to respond and interact in unfamiliar situations, activities or events. These stories are written to assist children in social situations. When children are more prepared and understand the expectations of a situation this helps to minimize possible problem behaviors that might occur. These stories can be utilized by teachers, parents and child care providers.

These stories are a tool to help a child prepare for a new situation and to address a challenging behavior within that new setting or situation. These scripted stories can be modified. Real photographs can be used instead of clip art. Please note that you can use real photographs of the child and change the wording to make it more personalized for your child or a student.
